

Cloud in Insurance

A Necessity Not an Option

Javier Cásedas
Chief Information Officer, AXA Gulf

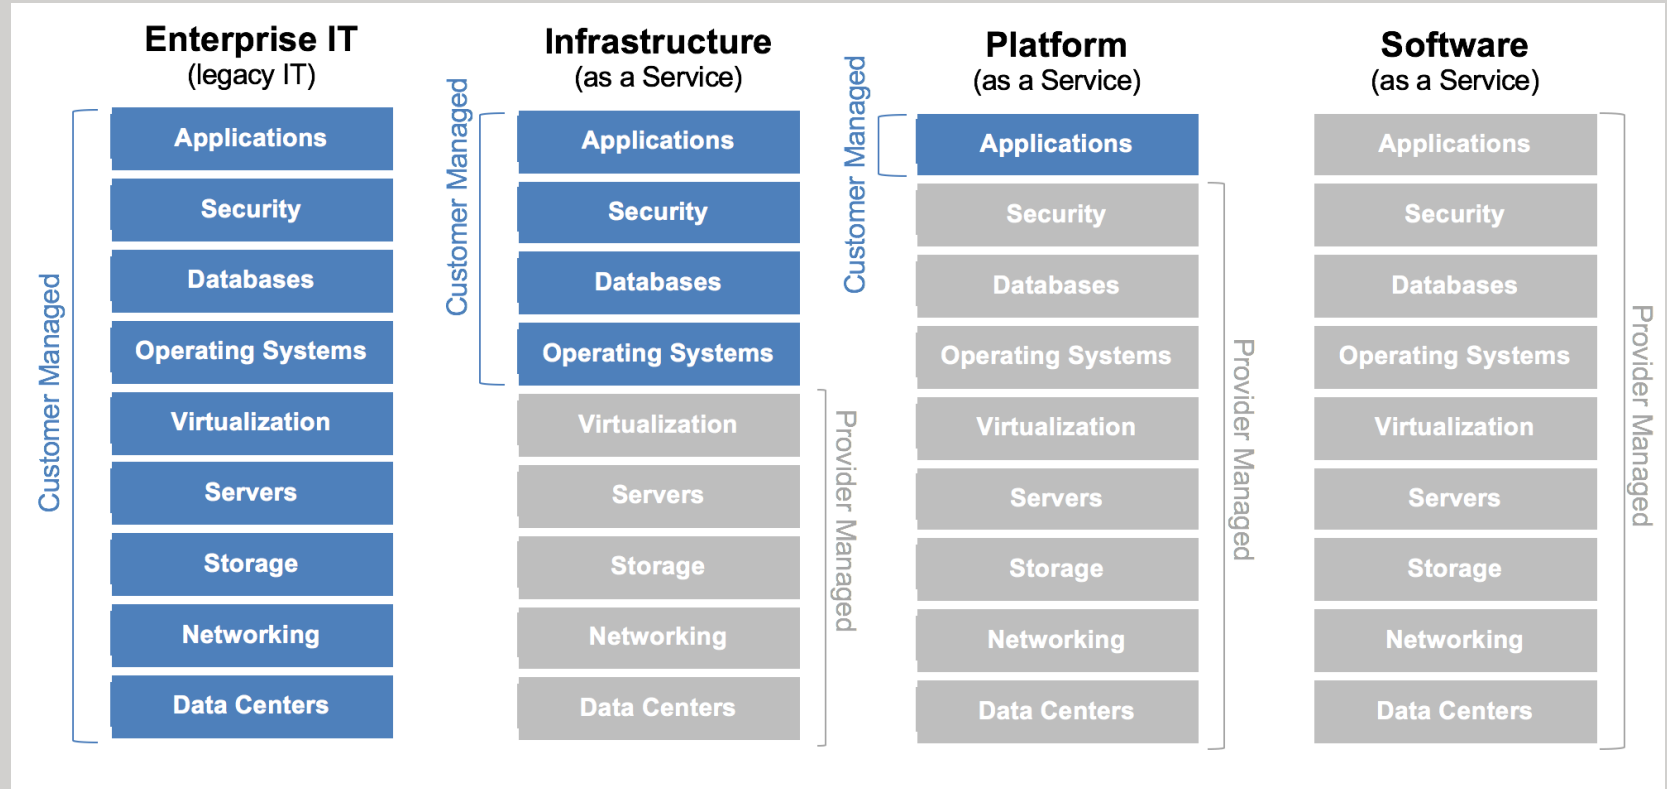

**Grab the cloud
to the ground**

**Infrastructure is important but services are at
the heart of the cloud**

**... and the products and APIs from thousands of companies you
can connect with**

Cloud as a Service

Cloud is not a tech initiative,

It's a business driven journey

To become a trusted
companion for our
customers and partners

To innovate and disrupt
with new business
models

A Business Need, not an Option

To create seamless and
efficient processes

To accelerate the
cultural shift in our
organisations

Customers & Partners

- **Auto-scaling**
- **Elasticity**
- **Secure**
- **Encrypted**
- **AI Services**
- **API Connected**

Efficiency

- On demand provisioning
- Pay per use
- Server-less
- Worldwide replication
- SaaS & PaaS models
- DRaaS & BaaS
- Specialised resources

Innovation & Disruption

- **Parametrics, Pay per Use, Health IoT, Automation...**
- **Image Recognition, AI, Machine Learning...**
- **Playful Cloud Sandboxes**
- **Test and Learn**

Technology & Cultural Shift

- **Innovation everywhere**
- **Collaborative working models**
- **Decoupled containerized architectures**
- **Extended out-of-company services and platforms**
- **Skills, competencies and values reshape**

To become a trusted companion for our customers and partners

- Auto-scaling, Elasticity
- Secure, Encrypted
- AI Services
- API Connected

A Business Need, not an Option

To innovate and disrupt with new business models

- Parametrics ...
- Machine Learning...
- Playful Cloud Sandboxes
- Test and Learn

To create seamless and efficient processes

- On demand provisioning, Pay per use
- Server-less, Worldwide replication
- SaaS & PaaS, DRaaS & BaaS
- Specialised resources

To accelerate the cultural shift in our organisations

- Innovation everywhere
- Collaborative models
- Decoupled architectures
- Skills and values reshape

AXA Gulf is moving to the cloud
